

JOSH WOODS

After graduating from the Entertainment Technology program at St. Clair College, Josh Woods honed his skills working at The Colosseum at Caesars Palace with artists like Celine Dion, Billy Joel and KISS. He went on to work for five years in Event Services at Canada's Wonderland and is now the Technical Director and Production Manager at Spot On Entertainment.

Josh loves the fair and entertainment industry for many reasons. Being a part of SuperDogs, Josh has had the opportunity to travel all across Canada. He has had the pleasure to see this beautiful country but most importantly, he got to meet people in the industry from coast to coast. Having the opportunity to interact and meet with people in the industry is exciting and a great learning experience.

“ I never understood just how large but small this industry is. Everyone is a part of this family and I'm so excited to be a part of it too”.

We can put a barcode on that.

Hit your target attendance by ensuring everyone counts
